Recent Accounting Pronouncement

IFRS 9 – Financial Instruments ("IFRS 9") was issued by the IASB in July 2014 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 will be effective for annual periods beginning on or after January 1, 2018. The Company is in the process of assessing the impact of this pronouncement.

3. Acquisition of Adventure

The Transaction was recorded for accounting purposes as an asset acquisition. Probe Metals acquired each outstanding Adventure common shares in exchange for 0.39 of a Probe Metals share. The Board of Directors of each company has unanimously approved the Transaction.
